To Whom it May Concern:

We are very concerned with another regulation that will make it harder for our small business to succeed in a very competitive business climate.

The Indoor Air Quality Regulation OSHA is considering is detrimental to our continuing success.

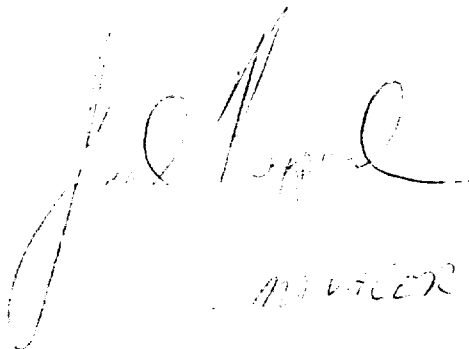

The potential fines of up to \$70,000 are simply unaffordable.

The smoking policy of this company should be determined by its owners not OSHA.

The estimated costs of up to \$65,000.00 to comply with this proposed regulation, with an exclusive smoking area vented to the outside is unaffordable.

Thank you for taking the time to consider our feelings on this important issue.

Sincerely,

  
MANAGER
